

Community Living
Burlington

Be an **ASSOCIATE / FAMILY HOME PROVIDER**

Open your heart and home to a person who has a developmental disability.

The Associate/ Family Home Program is a community living alternative where children and adults with a developmental disability live on a full-time basis with families and participate in all aspects of family life.

We are currently recruiting families or individuals who are interested in becoming an Associate/ Family Home Provider.

We are looking for caring families or individuals who are committed and interested in sharing their home and providing support to a child or adult who has a developmental disability.

We are also recruiting Respite Providers. We are looking for families or individuals to provide short term relief to our Associate/ Family Home Providers. Respite Providers support a child or adult by establishing connections with them and providing a consistent home for them to go to on occasional weekends or longer periods of time.

Interested families or individuals must live in the Halton Region and be able to provide a safe, supportive environment while fostering community connections and providing opportunities for growth and independence.

**We offer support, training and supervision
as well as financial remuneration.**

For details call or email Robyn Suzuki 905.336.2225 ext. 249
